

#ZeroCall23 Info Sheet

Do you have an inclusive, new solution? Is it easy to extend and adapt your solution? Nominate it for the #ZeroCall23! We are looking for solutions from all over the world. We will rate them in several steps and choose the best ones. The winners will receive a Zero Project Award and our whole network will support them: 6,000 members from over 100 countries.

Why should you nominate your solution?

Many people will nominate their solutions. A group of experts and people with disabilities will look at all of them, rate them and give feedback. The best solutions will receive the Zero Project Award.

Thanks to this award, people all over the world will know how great your solution is. And there are more benefits:

- You can present your solution at the Zero Project Conference. It takes place every year at the United Nations Offices in Vienna in Austria.
- You get access to the Zero Project Network. Many important organizations from all over the world are part of it, for example: the United Nations, governments, companies, associations and agencies that fund projects.
- Do you want to bring your solution to other countries or to recreate it for others? We will help you to do so.

NOMINATION

- There is a nomination form. We will guide you through it step by step.
- It takes about 1 hour to complete the form.
- It is available in English, German, Spanish, French, Russian, and Arabic.
