

# Training for Inclusive Teaching

## Blindness

Teachers help each other get around during a blindness simulation

## Mobility disability

Teachers simulate eating with a mobility disability while wearing oven mitts that limit their dexterity

## Wheelchair use

Participants experience daily struggles faced by people with mobility disabilities, such as going to the restroom

## Lecture

Teachers learn about all disabilities they might encounter, such as deafness, and how to adjust their lessons to accommodate their students' needs

## Personal meetings

Participants learn about the lives and challenges of people with disabilities while getting to know the people behind the disabilities
