Supported employment service

- The supported employment service provides comprehensive services to service users who need support in regard to employment.
- The service includes support for job-seeking and after employment
- The employment counsellor engages in close cooperation with both the employer and the service user throughout the employment process, if necessary.
- The employment service is provided to service users over the age of 18.
- Service users are residents of Helsinki. They may have been diagnosed with a developmental disability, autistic spectrum disorder, ADHD/ADD, speech and language development disorder, pervasive developmental disorder or other developmental disorder or disability.
